

# Oakport Transportation 2017 UPDATE vol 1

## Welcome to 2017!

Oakport Transportation is excited for 2017, and we thought we'd kickoff the New Year with a brief newsletter we'll produce several times throughout the year.

## Our areas of specialty

We pride ourselves on our areas of expertise.

Here are a few highlights for each region and run.

**PACIFIC NORTHWEST:** We have trucks running every day in Washington and Oregon. From LTL's to full loads we know the Northwest like the back of our hand.

**WEST COAST:** Our offices in Oregon and California have decades of experience in this region. We work with countless commodities delivering on-time products up and down the West coast.

**TEXAS TO CALIFORNIA:** From grapefruits to Texas oranges and more, we have regular trucks running West from Texas and to the California coast.

**FLORIDA TO CALIFORNIA:** One of our area of specialties is full load programs heading out of the Southeast to California.

## We have a diverse range of customers

Our full service team is ready to assist you with your deliveries. While a lot of our customers are focused on produce, we also provide services for:

- A. Chill
- B. Frozen
- C. Dry
- D. We handle load volume delivery and also Regional/National LTL

Put our team to the test if you haven't already.

## Diesel Price Estimates for 2017

The average diesel fuel price in 2016 was \$2.31/gallon, the lowest average since 2004. Early indications for 2017 are an average price of \$2.73/gallon and going to \$2.84/gallon in 2018. The increase is expected due to growing diesel consumption and higher crude oil prices.

(U.S. Department of Energy Short-Term Energy Outlook)
